

CATEX wins third consecutive Best Technology Provider award

Monte Carlo September 14, 2015 - CATEX has again won the prestigious designation of Best Technology Provider of the Year from Intelligent Insurer magazine.

The award, based on survey responses received from hundreds of reinsurance industry participants, was announced last night at the annual Les Rendez-vous de Septembre in Monte Carlo, Monaco.

The 2015 award marks the third consecutive year CATEX has earned the distinction as Best Technology Provider at the Monte Carlo meetings.

CATEX CEO Frank Fortunato said "I cannot emphasize enough how proud we are of our team. We're very grateful to our clients for their support and for making this possible."

About CATEX

The Catastrophe Risk Exchange, Inc (CATEX) is a leading developer of web based insurance and reinsurance software. CATEX provides software as a service to brokers, agencies, delegated authority partners and reinsurers to manage Treaty, facultative and commercial insurance needs. CATEX's flagship products, CATEX Pivot Point and Data Vera, are Microsoft .NET based solutions that provide placement, contract management, fiduciary accounting, ledger control, claims management, multi-currency settlements, bordereau processing, document management, data conversion, and comprehensive MI reporting functionalities. CATEX has been operating since 1994 and has offices in Princeton, NJ and London. In 2013, 2014 and 2015 Intelligent Insurer magazine named CATEX "Technology Provider of the Year" at the annual Rendezvous in Monte Carlo.
